1. Introduction

Twice the design, twice as safe.

A fire at a company destroys far more than just property: It also puts human life at risk and can threaten the economic existence of any business. But fires start small, so the faster they are detected, the less chance they have of triggering a sequence of disastrous events.

With SecuriFire, Securiton has created a fire detection system that of such high-tech intelligence and reliability, that it consigns all previous systems to history. SecuriFire's key innovation is its fully redundant system architecture, which provides twice the safety and that means that a complete system failure is practically impossible. All the hardware and software components have been duplicated, operating in parallel in two separate autonomous systems. If the active system fails, the secondary system takes over full operations – seamlessly.

For a safety map that leaves no blanks.

SecuriFire literally grows along with the tasks you set the system. Indeed, it is simple to expand or to reduce. Once you have defined your needs, the system architecture automatically adapts accordingly. And thanks to SecuriFire's unique flexibility you get exactly the level of protection you need for each area of your building: no more, but – more importantly – no less.

All under control at all times – with the SecuriFire Studio programming tool.

What do you need to plan, program and commission your SecuriFire system? It is simple: a laptop computer. SecuriFire Studio is an amazing piece of programming equipment. The tool guides you step by step until you arrive at exactly the right solution for your particular fire detection needs. It helps you to intuitively design the system topology, position the control units and SecuriLines within the building, and select the right detection and peripheral equipment. It goes without saying that you also have the full support of Securiton's own fire detection specialists. And when you're redesigning the system as your company expands, the programming tool will save you time and money. All you have to do is download the planning data via a service interface to a control unit. The data is then distributed throughout the system using the SecuriLan.

Relax – we're with you all the way.

Security professionals want a strong partner. A partner they can trust whatever happens – especially when the going gets tough.

A collaboration with Securiton fits the bill perfectly: the combination of personal consultations, unmatched technical know-how and proximity of our services means all you have to do is relax. Welcome to the safe side.

The descriptions and specifications contained in this Product Catalogue are correct at the time of issue. We reserve the right to make modifications, in particular for technical reasons. In the course of continual development, the products delivered may vary visually from those shown.

4. Fire Alarm Control Panels

4.1. SecuriFire 500

SCP 500 Cabinet

B10-SCP520

SecuriFire 500 Basic Version,
with built-in operating panel

20-1151010-01-01

SecuriFire 500 basic version including:

- Polycarbonate cabinet (grey)
- B10-CPB11 Central Processor Unit
- Battery compartment

Mains voltage / Frequency:

110/230 VAC +10%-15% 47-63 Hz

Power consumption: max. 90 W

Output voltage: 26,3 V DC (+50°C) to 28,3 V DC (0°C)

Output current: 2,4 A

Protection class (DIN 40050): IP30

Operating temperature: -5°C to +50°C

Weight of basic version: 2,3 kg (without batteries)

Dimensions (HxWxD): 300 x 360 x 80 mm

Cabinet: Polycarbonate

Color: anthracite grey (RAL 7016)

Approvals

VdS-Approval: G 212112
S 212006

Declaration of Performance (DoP): CPR-10-21-203

4.2. SecuriFire 1000

SCP 1000 Cabinet

B9-SCP1020

SecuriFire 1000 Basic version,
with built-in operating panel

20-1150040-01-01

SecuriFire 1000 basic version including:

- Sheet steel cabinet (grey)
- DOM-cylinder lock
- B9-BCB12 Central processor unit
- B9-PSU Power supply unit (110/230 VAC)
- Power clips and battery cable
- Battery compartment

Mains voltage / Frequency:	110/230 VAC + 10% - 15% 47 – 63 Hz
Power consumption:	max. 160 W
Output voltage:	26,3 V DC (+50°C) to 28,3 V DC (0°C)
Output current:	3,9 A
Protection class (DIN 40050):	IP30
Operating temperature:	-5°C to +50°C
Weight of basic version:	8 kg (without batteries)
Dimensions (HxWxD):	445 x 400 x 140 mm
Cabinet:	Sheet steel
Color:	light grey (RAL 7035)

Approvals

VdS-Approval:	G 209049 S 209049
Declaration of Performance (DoP):	CPR-10-21-201

Fire Alarm Control Panels

4.3. SecuriFire 2000

SCP 2000 Cabinet

SCP 2010

SCP 2020

SCP 2040

B9-SCP2010	Basic version	20-1150030-01-01
B9-SCP2020	with built-in operating panel	20-1150031-01-01
B9-SCP2040	with built-in operating panel, printer and cut out for EPI devices or Ext. Zone panel	20-1150033-01-01
B9-SCP2050	with built-in operating panel, and cut out for EPI device	20-1150034-01-01

- SecuriFire 2010 basic version including:
- Sheet steel cabinet (grey)
 - DOM-cylinder lock
 - B9-BCB13 Central processor unit
 - B9-PSU Power supply unit (110/230 VAC)
 - Power clips and battery cable
 - Battery compartment

Mains voltage / Frequency:	110 / 230 VAC + 10% - 15% 47 - 63 Hz
Power consumption:	max. 160 W
Output voltage:	26,3 V DC (+50°C) to 28,3 V DC (0°C)
Output current:	3,9 A
Protection class (DIN 40050):	IP30
Operating temperature:	-5°C to +50°C
Weight of basic version:	8 kg (without batteries)
Dimensions (HxWxD):	445 x 400 x 140 mm
Cabinet:	Sheet steel
Color:	light grey (RAL 7035)

Approvals

VdS-Approval:	G 209047 S 209047
Declaration of Performance (DoP):	CPR-10-21-202

Accessories

B8-SCP3050	with built in panel, printer and cut out for MMI-device	20-1050304-01-01

SecuriFire 3010 basic version including:

- Sheet steel cabinet (grey)
- DOM-cylinder lock
- B8-MCB15 Central Processor Unit
- B8-PSU power supply unit (110/230 VAC)
- Module rack with B8-BUS backplane
- Battery compartment

Mains voltage / Frequency:
110 / 230 VAC + 10% - 15% 47 - 63 Hz

Power consumption: max. 280 W

Output voltage: 26,3 V DC (min. At +50°C)

Output current: 7,1 A

Protection class (DIN 40050): IP30

Operating temperature: -5°C to +50°C

Weight of basic version: 23,5 kg (without batteries)

Dimensions (HxWxD): 470 x 670 x 230 mm

Cabinet: Sheet steel

Color: light grey (RAL 7035)

Approvals

VdS-Approval: G 209045
S 209045

Declaration of Performance (DoP): CPR-10-21-200

Accessories

Fire Alarm Control Panels

4.5. SecuriFire Accessories

SecuriFire Control Panel Accessories			
Replacement control boards / indication panels			
	Main Indication & Control Panel, non-redundant, for SCP1000 /2000	B9-MIC11	20-1150200-01-01
	Main Indication & Control Panel, redundant, for SCP3000	B8-MIC11	20-1050200-01-02
Replacement power supply			
	Battery cable set for SF500	B7 BATKAB	20-1140000-01-01
	Battery cable for SF1000/2000	B6 BATKAB	EI29940
	Battery cable set for SF3000	B5 BATKAB1	FG29910
	Battery Extension Box (key lock), max 2 x 12V/45 Ah, size like SecuriFire 3000	B5-ADB 11	10-2000001-01-02
	Battery Extension Box, max 2 x 12V/17 Ah, size like SecuriFire 2000	B6-ADB 10	10-2000002-01-02
Printer			
	Protocol printer device	B5-PDR-DW	FG030550
Various spare parts			
	Key for SCP520	DKM SCHL	FG020015

5. Software Dongles & Licences

SecuriFire Studio:	SecuriFire Studio is the standard PC application complete with all software modules (programs) for project planning, commissioning, maintenance and diagnostics of all control-, indication panels and control maps belonging to the SecuriFire system family and for the detector loop periphery.
Virtual Mic:	The virtual control panel SecuriFire VirtualMIC provides a clearly structured, standard-compliant display and control of the fire detection system on a local PC.
Additional Language:	Following additional languages are available: German, English, Czech, Slovak, Hungarian, Italian, Latvian, Croatian, Russian, Swedish, Turkish, Dutch, Romanian, French, Danish, Slovenian, Serbian, Bulgarian, Spanish, Portuguese, Estonian, Bosnian, Arabic, Finnish, Norwegian, Flemish
Detector Stimulation:	Alarm stimulation and system check on detector for testing purpose. SecuriFire unit doesn't see stimulation, Alarm looks like a real alarm (Execution of macros, etc.)
SecuriWan:	Superordinate, multi-site fire alarm network. Normative: For normative networks Informative: For informative connections, i.e. via a routed customer network

Dongle order form available on the Securiton Homepage:

6. SecuriCloud

SecuriCloud – The central hub for secure RemoteServices.

With SecuriCloud, operators of SecuriFire fire alarm systems and system installers can access the on-site systems at any time and from anywhere.

The SecuriCloud consists of two applications – RemoteAccess for installers and MobileControl for operators.

RemoteAccess

As a system installer/integrator, you can access the systems at your customers from the comfort of your PC. This provides the most direct route to professional support,

MobileControl

Additional application to RemoteAccess. As an operator of a SecuriFire system, you are informed about relevant events in real time and can respond remotely.

SecuriCloud – Service fee system:

The SecuriCloud applications are based on a monthly service fee system, which is invoiced annually. For both applications, the minimum contract period is 12 months.

How to order:

Every order must be placed via the order form on the Securiton homepage.

<https://www.securiton.com/securicloud-form>

To guarantee a flawless ordering process, other orders cannot be accepted.

SecuriCloud

Services

SecuriCloud RemoteAccess Basic	RemoteAccess	VE100500
SecuriCloud Mobile Control Essential (1 Mobile Control User)	Essential	VE100501
SecuriCloud Mobile Control Classic (2-7 Mobile Control User)	Classic	VE100502
SecuriCloud Mobile Control Flexible (8 and more Mobile Control User)	Flexible	VE100503

Hardware

SecuriCloud Router LAN NB1601-R (industrial router, approved for SecuriCloud)

NB1601-R

2491005

The basic RemoteAccess service and the NB1601 router are the basis for MobileControl, thereafter the service model that best meets the desired requirements can be selected.

RemoteAccess connection (per FAS)		MobileControl connection (per FAS)		
RemoteAccess	LAN-Router	Essential	Classic	Flexible
 	 NB1601	 1 MobileControl user	 2 to 7 MobileControl users	 8 and more MobileControl users

19" Cabinet Equipment

7. 19" Cabinet Equipment

Rack Version, incl. B8-PSU, B8-BUS,
B8-MCB15, Battery compartment

B8-STS-BGT-SF

20-1060016-02-01

SecuriFire 3000 rack for mounting in a 19" standing cabinet.

Inclusive:

- B8-PSU
- B8-BUS
- B8-MCB15
- Battery compartment B5-STS-AF

Battery compartment for standing cabinet

B5-STS-AF

20-1060007-01-01

Battery compartment to store batteries in a 19" standing cabinet.

Color: anthracite grey (RAL 7016)

Additional frame 19"

B5-STS-19-ME

246514

19" frame for additional SecuriFire 3000 unit racks.

Height units: 5 RU

Material: Stainless Steel

Front plate for MIC711 or 2 EPI devices

B5-STS-MIC

20-1060004-01-02

Front plate for MIC711 or 2 EPI devices, for mounting in a 19" standing cabinet.

Height units: 5 RU

Color: anthracite grey (RAL 7016)

Front plate for MIC711 and EPI device

B5-STS-MIC2

20-1060015-01-01

Mounting frame for 19" standard closet with cut out for one MIC711 and EPI device or 3 EPI devices.

Height units: 5 RU

Color: anthracite grey (RAL 7016)

Printer for 19"

B5-STS-PR-2

20-1060001-01-03

Front plate for a protocol printer, for mounting in a 19" standing cabinet.

Height units: 5 RU

Color: anthracite grey (RAL 7016)

Blind plate small for 19"

B5-STS-BFP2-2

20-1060008-01-01

Blind front plate small, for mounting in a 19" standing cabinet.

Height units: 1 RU

Color: anthracite grey (RAL 7016)

Blind plate for 19"

B5-STS-BFP-2

20-1060003-01-01

Blind front plate, for mounting in a 19" standing cabinet.

Height units: 5 RU

Color: anthracite grey (RAL 7016)

19" Cabinet Equipment

External Indicator Panel for 64 DZ 19" VdS CE

B5-STS-EAT64-2 **20-1060011-01-02**

LED indicator panel 19" for indication of alarm, fault and disablement states for 64 detector zones. The labelling uses push-in strips.

Templates for push-in strips available in SecuriFire Studio.

- RS485 interface
- Connection to MMI-BUS
- DIN 19244-3 Protocol

Operating voltage:	10 to 30 V
Current consumption:	2 mA per lit LED
Height units:	5 RU
Color:	anthracite grey (RAL 7016)

External Indicator Panel for 8 exting. zones 19" VdS CE

B5-STS-IPEL-2 **20-1060012-01-03**

External LED indicator panel 19" for eight extinguishing zones (twelve LEDs per extinguishing zone and group indicator with nine LEDs), including case, key switch and controller module. The labelling uses push-in strips.

Templates for push-in strips available in SecuriFire Studio.

- RS485 interface
- Connection to MMI-BUS
- DIN 19244-3 Protocol

Operating voltage:	10 to 30 V
Current consumption:	2 mA per lit LED
Height units:	5 RU
Color:	anthracite grey (RAL 7016)

19" Accessories

Connection

Main connection terminals for PSU B5-STS-KL 20-1060045-01-01

8. Indication and Operating Panels

The SecuriFire standard indication and control maps provide well-organized, convenient, standards-compliant display and operation of a SecuriFire system and can be built into an FCP or separately mounted in their own housings. For VdS approvals please consult the device approvals of the SecuriFire fire alarm control panels.

8.1. Built-in Indication and Operation Panels

Sector extinguisher display

B4-EIP

w/o housing, for panel integration

FG81624A9K

Single-zone extinguisher display, for mounting in a SCP 2040/2050.

Internal LED control panel for one extinguishing area,

- Display foil with 12 LEDs for extinguishing area
- Collective display with 9 LEDs
- Key switch for maintenance, extinguishing area in revision
- Labelling is by means of insertion strips

Operating voltage:	22 to 30 V
Current consumption:	2 mA
Operating temperature:	-5°C to +50°C
Dimensions (HxWxD):	145 x 98 x 35 mm

Built in Fire brigade panel CH (for Switzerland)

B5-EPI-FPC-E

w/o housing, for panel integration

20-1240001-01-02

Fire brigade panel, for mounting in a SCPxxxx. Providing an easy man-machine-interface for the fire brigade.

- Language independent application by means of pictograms.
- Connection to EPI-BUS (cable included)

Operating voltage:	22 to 30 V
Current consumption:	2 mA
Operating temperature:	-5°C to +50°C
Dimensions (HxWxD):	145 x 98 x 35 mm

Accessories

Spare Key for B5-EPI-FPC	Z 12600 SEA	98191
Spare Lock 90° Z12600 for B5-EPI-FPC	SEA ZYL.4.022.2	196282

Indication and Operating Panels

Indication map for 32 alarm lines

B8-MMI-EAT32 BFE w/o housing, for panel integration

20-1240302-01-02

LED indicator panel for indication of alarm, fault and disablement states for 32 detector zones.

The labelling uses push-in strips.

Templates for push-in strips available in SecuriFire Studio.

- Connection to EPI-BUS (cable included)

Operating voltage:	10 to 30 V DC
Current consumption:	2 mA per lit LED
Operating temperature:	-5°C to +50°C
Dimensions (HxWxD):	185 x 220 x 35 mm

Panel for 4 extinguishing areas

B8-MMI-IPES BFE w/o housing, for panel integration

20-1240303-01-03

LED indicator panel for indication of alarm, fault and disablement states for 4 extinguish zones.

The labelling uses push-in strips.

Templates for push-in strips available in SecuriFire Studio.

- Connection to MMI-BUS (cable included)

Operating voltage:	10 to 30 V DC
Current consumption:	2 mA per lit LED
Operating temperature:	-5°C to +50°C
Dimensions (HxWxD):	185 x 220 x 35 mm

8.2. External Indication and Operating Panels

The SecuriFire standard indication and control maps provide well-organized, convenient, standards-compliant display and operation of a SecuriFire system and can be built into a FCP or separately mounted in their own housings.

External devices and indication and control maps can be connected to the "EPI-BUS" on each MIC. A maximum of 3 participants can be connected to this data bus at a distance of up to 1 m from the main indication and control map MIC.

Using the "MMI-Bus" on the SecuriFire control panel allows a distance of up to 1200m between the operator panel and the central unit.

Main indication and control map (redundant)

B8-MIC711

20-1230200-01-02

External main indication and control panel for SecuriFire 3000.

User-friendly full operation with "SecuriWheel" and system symbols.

- RS485 interface
- for SecuriLan
- 5.7" TFT-Color Display
- Operation with scroll wheel or functional keys
- 4 different languages changeable online
- Customized menus (optional)
- Up to 1200m distance between MIC711 and central panel using SecuriLan
- Redundant by double ring crosslinking
- with Ethernet protocol possibly (RX/TX)
- EPI-BUS-Interface
- Interface for external printer B5-MIC-PPE

Operating voltage:	10 to 30 V DC
Current consumption:	213 mA
Protection class:	IP 42
Operating temperature:	-5°C to +50°C
Weight:	1445 g
Dimensions (HxWxD):	276 x 170 x 54 mm
Color:	anthracite grey (RAL 7016)

Indication and Operating Panels

Main indication and control map (non redundant)

B9-MIC711

20-1230201-01-02

External non redundant main indication and control panel for SecuriFire 2000.

User-friendly full operation with "SecuriWheel" and system symbols.

- RS485 Interface
- for SecuriLan
- 5.7" TFT-Color Display
- Operation with scroll wheel or functional keys
- 4 different languages changeable online
- Customized menus (optional)
- Up to 1200-m distance between MIC711 and central panel using SecuriLan
- with Ethernet protocol possibly (RX/TX)
- EPI-BUS-Interface
- Interface for external printer B5-MIC-PPE

Operating voltage:	10 to 30 V DC
Current consumption:	165 mA
Protection class:	IP42
Operating temperature:	-5°C to +50°C
Weight:	1190 g
Dimensions (HxWxD):	276 x 170 x 54 mm
Color:	anthracite grey (RAL 7016)

Floor indication panel

B5-MMI-FIP

20-1230005-01-02

The SecuriFire floor indication panel provide well organized and convenient announcement of the conditions of the SecuriFire - system.

It contains a monochrome LCD display with 6 lines for the indication of all investment conditions in the clear text.

No inscription on housing front (only announcement elements).

- Connection to MMI-BUS
- LCD display with 6 lines
- EPI-BUS-Interface

Operating voltage:	10 to 30 V DC
Current consumption:	49 mA
Protection class:	IP42
Operating temperature:	-5°C to +50°C
Weight:	775 g
Dimensions (HxWxD):	276 x 170 x 48 mm
Color:	anthracite grey (RAL 7016)

Empty housing with blind cover

EHB 701-1

EPI panel size

12-4400038-01-01

The EHB 701 Empty Housing with Blind cover is for the SecuriFire fire alarm control panel or the SecuriSafe intrusion control panel. It can be used as a distributor box, installation box, or for similar applications.

Protection class:	IP42
Dimensions (HxWxD):	137,5 x 170 x 85 mm
Color:	anthracite grey (RAL 7016)

Universal input-output module

B3-MMI-UIO

EN 54-18

20-1211001-01-01

For controlling the floor plan and parallel display panels or as a remotely located input/output module for querying potential-free contacts (sprinkler systems), or also for controlling non-monitored sirens, lamps, relays etc.

- RS485 interface
- Connection to MMI-BUS
- DIN 19244-3 Protocol
- MMI-BUS-Interface
- Cable length input/output max. 100m

Operating voltage:	10 to 30 V DC
Current consumption:	14 mA
Output voltage:	max. 30 V
Input voltage:	5 V
Operating temperature:	0°C to +50°C
Weight:	150 g
Dimensions (HxWxD):	160 x 105 x 20 mm

Assembly hint:

The box UIO GEH must be ordered separately
See accessories for SecuriFire Units and Boards

Indication and Operating Panels

External Indicator Panel for 64 DZ

B3-MMI-EAT64-S

20-1230119-01-02

LED indicator panel for indication of alarm, fault and disablement states for 64 detector zones. The labelling uses push-in strips.

Templates for push-in strips available in SecuriFire Studio.

- RS485 interface
- Connection to MMI-BUS
- DIN 19244-3 Protocol

Operating voltage:	10 to 30 V
Current consumption:	2 mA per lit LED
Protection class:	IP30
Operating temperature:	0°C to +50°C
Dimensions (HxWxD):	228 x 445 x 48 mm
Color:	anthracite grey (RAL 7016)

External indicator panel for 8 extinguishing zones

B3-MMI-IPEL-S

20-1230120-01-03

External LED indicator panel for eight extinguishing zones (twelve LEDs per extinguishing zone and group indicator with nine LEDs), including case, key switch and controller module. The labelling uses push-in strips.

Templates for push-in strips available in SecuriFire Studio.

- RS485 interface
- Connection to MMI-BUS
- DIN 19244-3 Protocol

Operating voltage:	10 to 30 V
Current consumption:	2 mA per lit LED
Protection class:	IP30
Operating temperature:	0°C to +50°C
Dimensions (HxWxD):	228 x 445 x 48 mm
Color:	anthracite grey (RAL 7016)

Intervention panel SV (for Sweden)

SBSC

B5-MMI-IPS-S

20-1230114-01-02

Swedish intervention panel. Displays the relevant operating states to ensure simple operation by the fire brigade. Display message and labels are in Swedish language

- Connection to MMI-BUS

Operating voltage:	10 to 30 V
Current consumption:	49 mA
Protection class:	IP42
Operating temperature:	-5°C to +50°C
Weight:	500 g
Dimensions (HxWxD):	227 x 170 x 40 mm
Color:	anthracite grey (RAL 7016)

Fire brigade panel SV (for Sweden)

SBSC

B5-MMI-FPS-S

MMI-BUS

20-1230117-01-02

B5-EPI-FPS-S

EPI-BUS

20-1230113-01-02

Swedish fire brigade panel. Displays the relevant operating states to ensure simple operation by the fire brigade. Display message and labels are in Swedish language

- B5-MMI-FPS-S connection to MMI-BUS
- B5-EPI-FPS-S connection to EPI-BUS

Operating voltage:	10 to 30 V
Current consumption:	MMI: 49 mA EPI: 11 mA
Protection class:	IP42
Operating temperature:	-5°C to +50°C
Weight:	500 g
Dimensions (HxWxD):	227 x 170 x 40 mm
Color:	anthracite grey (RAL 7016)

Indication and Operating Panels

Fire brigade panel CH (for Switzerland) CE

B5-EPI-FPC-GS

20-1230001-01-02

Fire brigade panel providing an easy man-machine-interface for the fire brigade. Features a language independent application by means of pictograms. Fits neat & nice beside a MIC711 and connects via its EPI-BUS (50cm cable included).

- Connection to EPI-BUS

Operating voltage:	22 to 30 V
Current consumption:	2 mA
Protection class:	IP30
Operating temperature:	-5°C to +50°C
Dimensions (HxWxD):	170 x 138 x 48 mm
Color:	anthracite grey (RAL 7016)

Accessories		
Spare Key for B5-EPI-FPC	Z 12600 SEA	98191
Spare Lock 90° Z12600 for B5-EPI-FPC	SEA ZYL.4.022.2	196282

Partial Indication and Control Map VdS CE

B5-EPI-PCM-GS

20-1230111-01-02

For switching and indicating functions in a SecuriFire system. Functions on buttons and LEDs can be configured via software.

- 16 LEDs (8 red and 8 yellow, pair wise)
- 8 push buttons
- Connection to EPI-BUS

Operating voltage:	22 to 30 V
Current consumption:	5 mA
Protection class:	IP42
Operating temperature:	-5°C to +50°C
Dimensions (HxWxD):	170 x 138 x 48 mm
Color:	anthracite grey (RAL 7016)

Partial Indication Map

B5-EPI-PIM-GS

20-1230112-01-02

For status indication of detectors, zones or any other system parts. LEDs can be configured via software.

- 32 LEDs (16 red and 16 yellow, pair wise)
- Connection to EPI-BUS

Operating voltage:	22 to 30 V
Current consumption:	5 mA
Protection class:	IP42
Operating temperature:	-5°C to +50°C
Dimensions (HxWxD):	170 x 138 x 48 mm
Color:	anthracite grey (RAL 7016)

Printer for MIC711

B5-MIC-PPE

20-1230002-01-01

Protocol printer for hard copy documentation of logged events. Comes in a MIC size housing and with the cable to connect it to the MIC711.

Operating voltage:	10 to 30 V
Current consumption:	0 mA
Current consumption (print):	35 mA
Protection class:	IP30
Operating temperature:	0°C to +50°C
Dimensions (with case) (HxWxD):	170 x 138 x 62 mm
Color:	anthracite grey (RAL 7016)

Accessories

Color cartridge for printer	PD FRB	HG694076
Paper roll for printer	PD PPR	PPF-519057

Indication and Operating Panels

8.3. Accessories for Indication and Operating Panels

LC-Display for indication panels

CSM 6789

20-1400210-01-01

The LC display CSM 6789 is available as spare part for following indication and control panels

- Fire brigade panel Sweden: B5-MMI-FPS / B5-EPI-FPS (all versions)
- Intervention panel Sweden: B5-MMI-IPS (all variations)
- Fire brigade panel Finland: B5-MMI-FPF (all variations)
- Floor indication panel SecuriFire: B5-MMI-FIP

Ground connection set for control panels

EARTH-SET

20-1400030-01-01

Ground connection set to avoid EMC problems.

- When there is no protective conductor (PE) or it is not certain that equipotential bonding is available, and the MMI-BUS is more than 250m away from the control panel.
- When powered by an external power supply.

The following products can be grounded using the EARTH-SET:

- B5-MMI-FPS (all versions)
- B5-MMI-IPS (all versions)
- B5-MMI-FPF (all versions)
- B5-MMI-FIP
- B5/B6-MIC711
- B8/B9-MIC711

Indication and Operating Panels Accessories

Housing parts

	Covering Strip (2 pcs.)	COS 701-1	12-4400051-01-01
	Back housing part for B8/B9-MIC711	HOP 703-1	10-2300002-01-01
	Housing part for EHB 701-1	HOP 701-1	12-4400052-01-01

9. Flush Mounting Frames

Flush mounting kit for MIC711, EPI device and plan box

KFC 70-1	Flush mounting case	12-4400066-01-01
FKC 70-1	Flush mounting frame	12-4400061-01-01

Flush mounting case and frame with attachment screw, for SecuriFire / SecuriSafe indication and control panels.
 - 1 MIC and 1 small operating device and 1 plan box

Dimensions (HxWxD):	542 x 495 x 90 mm
Color:	anthracite grey (RAL 7016)

Accessories		
Plan box	PLB 70-1	12-4400001-01-01
Spare Key for plan box	Z 12600 SEA	98191

Flush mounting kit for MIC711

KFC 73-1	Flush mounting case	12-4400068-01-01
FKC 73-1	Flush mounting frame	12-4400063-01-01
FKC 73W-11	Flush mounting frame, white	12-4400063-11-01

Flush mounting case and frame with attachment screw, for SecuriFire / SecuriSafe indication and control panels.
 - 1 MIC or 2 small operating devices

Dimensions (HxWxD):	251 x 357 x 90 mm
Color:	anthracite grey (RAL 7016) traffic white (RAL 9016)

10. SecuriFire Units and Boards

10.1. SecuriFire 500 Units

Every basic version of the SecuriFire 500 fire alarm control panel, includes the central processor unit B10-CPB11, there is no additional power supply necessaire as it is included on the main control unit. The SecuriFire 500 fire control panel is not extendable. All SecuriFire 500 units are listed in the VdS G 212112 certificate.

Main control unit SF500 VdS CE

B10-CPB11 Repair replacement only **20-1151102-01-01**

The B10-CPB11 main control unit is included in every SecuriFire B10-SCP520.

Mains voltage / Frequency:	
110/230 V (-15% / +10%) 47 to 63 Hz	
Power consumption:	max. 90 W
Output voltage:	26,3 V DC (+50°C) to 28,3 V DC (0°C)
Current consumption:	2,4 A
Weight:	510 g

10.2. SecuriFire 1000 Units

Every basic version of the SecuriFire 1000 fire alarm control panel, includes the central processor unit B9-BCB12 and the power supply unit B9-PSU. The SecuriFire 1000 fire control panel is not extendable. All SecuriFire 1000 units are listed in the VdS G 209049 certificate.

Main control unit 2000 VdS CE

B9-BCB12 Repair replacement only **20-1150103-01-01**

The B9-BCB12 main control unit is included in the basic configuration of every SecuriFire B9-SCP1000. In conjunction with the B9-PSU power supply unit, it forms the basis for the SecuriFire B9-SCP1000 hardware platform.

Mains voltage / Frequency:	
110/230 VAC + 10% - 15% 47 – 63 Hz	
Power consumption:	max. 160 W
Output voltage:	26,3 V DC (+50°C) to 28,3 V DC (0°C)
Weight:	373 g

Power supply unit 1000A / 2000 VdS CE

B9-PSU Repair replacement only **20-1100006-01-01**

➔ SecuriFire 2000 Units and Boards

10.3. SecuriFire 2000 Units and Boards

Every basic version of the SecuriFire 2000 fire alarm control panel, includes the central processor unit B9-BCB13 and the power supply unit B9-PSU.

The expansion boards B4 / B6 / B9-XXX must be equipped on the main unit. All plugs are enclosed. All SecuriFire 2000 units are listed in the VdS G 209047 certificate.

Main control unit 2000

B9-BCB13

Repair replacement only

20-1150102-01-01

The B9-BCB13 main control unit is included in the basic configuration of every SecuriFire B9-SCP2000. In conjunction with the B9-PSU power supply unit, it forms the basis for the SecuriFire B9-SCP2000 hardware platform.

Mains voltage / Frequency:

110/230 VAC + 10% - 15% 47 – 63 Hz

Power consumption:

max. 160 W

Output voltage: 26,3 V DC (+50°C) to 28,3 V DC (0°C)

Operating temperature: 0°C to +50°C

Weight: 373 g

Power supply unit 1000A / 2000

B9-PSU

Repair replacement only

20-1100006-01-01

The B9-PSU power supply unit is included in the basic configuration of every SecuriFire B9-SCP2000. In conjunction with the B9-BCB13 or B9-BCB12 main control board, it forms the basis for the SecuriFire B9-SCP2000 and B9-SCP1000 hardware platform.

Mains voltage / Frequency:

110/230 VAC + 10% - 15% 47 – 63 Hz

Output voltage: 5 x 27 V DC

Output current: 3,9 A

Operating temperature: 0°C to +50°C

Weight: 1075 g

SecuriFire Units and Boards

SecuriLine eXtended board VdS CE

B9-DXI2

20-1100010-01-01

For connecting a further two addressable loops with detectors and modules featuring SecuriLine eXtended addressable loop technology to the SecuriFire 2000. Alternatively, one addressable loop and two stub lines or four stub lines can also be connected. The unit also has a LAN interface. This means that all the options of a LAN interface can be used even with 4 loops. The unit is fitted to the main control unit B9-BCB13.

Power supply:	internal via System-BUS
Current consumption:	31 mA
Output voltage:	30 V DC $\pm 3\%$
Operating temperature:	-5°C to +50°C
Weight:	140 g

Network interface board VdS CE

B6-NET2-485

EG072934

For redundant networking of SecuriFire 2000 control panels or for redundant connection of PC applications. The module consists of 2 network connectors (RS485 interface) and one 100Base-TX interfaces. The module is connected to the B9-BCB13 main processor unit.

Power supply:	internal via System-BUS
Current consumption:	53 mA
Operating temperature:	-5°C to +50°C
Weight:	140 g

Network interface board VdS CE

B6-NET2-FXS

20-1100000-01-01

For redundant networking of SecuriFire 2000 control panels or for redundant connection of PC applications. The module consists of 3 network connectors (1x RS485 interface, 2x FXS) and one 100Base-TX interface. The module is connected to the B9-BCB13 main processor unit.

Power supply:	internal via System-BUS
Current consumption:	99 mA
Operating temperature:	-5°C to +50°C
Weight:	140 g

Network interface board

B6-NET2-FXM

20-1100001-01-01

For redundant networking of SecuriFire 2000 control panels or for redundant connection of PC applications. The module consists of 3 network connectors (1x RS485 interface, 2x FXM) and one 100Base-TX interface. The module is connected to the B6-BCB13 main processor unit.

Power supply:	internal via System-BUS
Current consumption:	122 mA
Operating temperature:	-5°C to +50°C
Weight:	140 g

Network interface board

B9-NET-FX4

20-1100030-01-01

For redundant networking of SecuriFire 2000 control panels or for redundant connection of PC applications. The module consists of 4 network connectors (4x FX (SM/MM)) and one 100Base-TX interface. The module is connected to the B6-BCB13 main processor unit.

Power supply:	internal via System-BUS
Current consumption:	87 mA + 30 mA for each SFP
Operating temperature:	-5°C to +50°C
Weight:	140 g

Input/Output board

B6-EIO

20-1100003-01-02

The B6-EIO Unit includes 10 monitored inputs and 8 monitored outputs as well as the control electronics for the LED indication panel, which is built into the door of every SecuriFire ECP/FEP 2000.

The unit was developed for standards-compliant actuation of an extinguishing area. However, in accordance with its features, it can also be used in other ways. The module is connected to the B9-BCB13 main processor unit.

Power supply:	internal via System-BUS
Current consumption:	31 mA
Operating temperature:	0°C to +50°C
Weight:	160 g

SecuriFire Units and Boards

10.4. SecuriFire 3000 Units and Boards

Every basic version of the SecuriFire 3000 fire alarm control panel, includes the central processor unit B8-MCB15 and the power supply unit B8-PSU.

All modules and components of the SecuriFire system are redundant for system availability reasons, which also guarantee in the event of a fault that indication information, signal processing and the controlling of all connected fire alarm devices is ensured.

All SecuriFire 3000 units are listed in the VdS G 209045 certificate.

Slot Allocation:

- | | | |
|--|------------------|-----------|
| 1. Main Control Board B8-MCB15 | in slot 1 | Mandatory |
| 2. Power Supply Unit B8-PSU | in slot 10 | Mandatory |
| 3. LAN, NET2-485 or NET4-485 boards | in slot 2 | |
| 4. Relay boards REL10/16/16E | in slot 11 to 13 | |
| 5. BAF or MRI16 boards | in slot 9 | |
| 6. Slot 9 needs to be equipped in order to enable slots 11 to 13 | | |
| 7. Slots 3 to 9 are for all other boards | | |

Main control unit 3000

B8-MCB15

Repair replacement only

20-1050110-01-02

The B8-MCB15 main control board is included in the basic configuration of every SecuriFire B8-SCP3000. In conjunction with the B8-BUS and the B8-PSU power supply unit, it forms the basis for the SecuriFire B8-SCP3000 hardware platform.

Mains voltage / Frequency:	110/230 VAC + 10% - 15% 47 – 63 Hz
Power consumption:	max. 280 W
Output voltage:	26,3 V DC (min. at +50°C)
Weight:	210 g

Power supply unit 3000

B8-PSU

Repair replacement only

20-1000008-01-04

The B8-PSU power supply unit is included in the basic configuration of every SecuriFire B8-SCP3000. In conjunction with the B8-BUS and the B8-MCB15 main control board, it forms the basis for the SecuriFire B8-SCP3000 hardware platform.

Mains voltage / Frequency:	110/230 VAC + 10% - 15% 47 – 63 Hz
Output voltage:	5 x (21,0 to 27,9 V)
Output current:	max. 7,1 A
Weight:	1150 g

Control board

B8-BAF

20-1000011-01-04

For connecting fire brigade control panels, transmission equipment (main detectors), alarm systems (sirens) and for controlling the relay bus. The module also controls an interface for the MMI-BUS (bus for external devices) to which external operating panels, a fire brigade operating panel and other devices are connected.

Power supply:	internal via System-BUS
Current consumption:	typ. 60 mA
Output voltage:	22 to 28 V DC
Output current:	max. 1,5 A
Operating temperature:	-5°C to +50°C
Weight:	265 g

System configuration hint:

The jumpers for the MMI BUS termination are in closed position.
Compatible with SecuriFire Studio ≥2.2.0.

SecuiLine eXtended board

B8-DXI2A

20-1000018-01-01

For connecting two addressable loops with detectors and modules featuring SecuiLine eXtended addressable loop technology to the SecuriFire 3000. Alternatively, one addressable loop and two stub lines or four stub lines can also be connected.

Power supply:	internal via System-BUS
Current consumption:	35 mA
Output voltage:	30 ±3% V DC
Operating temperature:	-5°C to +50°C
Weight:	225 g

SecuiLine eXtended board

B8-SXI8

20-1000010-01-03

For connecting eight addressable stub lines with detectors and modules, featuring SecuiLine eXtended addressable technology to the SecuriFire 3000.

Power supply:	internal via System-BUS
Current consumption:	43 mA
Output voltage:	30.6 ±3% V DC
Operating temperature:	-5°C to +50°C
Weight:	266 g

SecuriFire Units and Boards

Network interface board VdS CE

B8-NET2-485

20-1000033-01-01

For redundant networking SecuriFire 3000 control panels or for redundant connection of PC applications. The module consists of two network connectors (RS485 interface) and two 100Base-TX interfaces. On the front side there are 6 RJ-45 sockets for connecting to the sub control unit network and to the Ethernet.

Power supply:	internal via System-BUS
Current consumption:	120 mA
Operating temperature:	-5°C to +50°C
Weight:	2250 g

System configuration hint:
Can only be operated in connection slot 2 of the module rack.

Network interface board VdS CE

B8-NET4-485

20-1000034-01-01

For redundant networking of SecuriFire 3000 control panels or for redundant connection of PC applications. The module consists of four network connectors (RS485 interface) and two 100Base-TX interfaces. On the front side there are 10 RJ45 sockets for connecting to the sub control unit network and to the Ethernet.

Power supply:	internal via System-BUS
Current consumption:	127 mA
Operating temperature:	0°C to +50°C
Weight:	225 g

System configuration hint:
Can only be operated in connection slot 2 of the module rack.

Network interface board VdS CE

B8-NET2-FX4

20-1000030-01-01

For redundant networking of SecuriFire 3000 control panels or for redundant connection of PC applications. The module consists of 5 network connectors (4x RS485 of which 2x galvanically isolated) and one 100Base-TX interface.

Power supply:	internal via System-BUS
Current consumption:	194 mA + 30 mA per SFP
Operating temperature:	0°C to +50°C
Weight:	225 g

System configuration hint:
Can only be operated in connection slot 2 of the module rack.

Network interface board

B8-NET-FX8

20-1000031-01-01

For redundant networking of SecuriFire 3000 control panels or for redundant connection of PC applications. The module consists of 8 network connectors (8x SFP FX (SM)) and one 100Base-TX interface.

Power supply:	internal via System-BUS
Current consumption:	226 mA + 30 mA per SFP
Operating temperature:	0°C to +50°C
Weight:	225 g

System configuration hint:

Can only be operated in connection slot 2 of the module rack.

Serial interface board

B8-USI4

20-1000032-01-01

For connecting SecuriFire 3000 sub control units to control systems, for controlling external printers, pagers, telephone servers etc. A total of 4 redundant, serial, asynchronous interfaces can be used as redundant RS485 connections in half-duplex mode (for loops) or as non-redundant RS422 connections in full-duplex mode (for lines). Furthermore, two of the four interfaces can also be operated as RS232 in full-duplex operation (line) each with 2 control circuits. The selection of each interface's operating mode is done by programming and hardware configuration.

Power supply:	internal via System-BUS
Current consumption:	20 mA
Operating temperature:	0°C to +50°C
Weight:	225 g

System configuration hint:

A maximum of five B8-USI4 units can be fitted per sub control unit.

Note:

Run out phase.

Monitored output board VdS CE

B8-OM8

20-100020-01-01

This indicating circuit controller is designed for efficient, addressable control of sounders, sirens, bells and strobes. The maximum output current of 1,3A per output and 3A per block of four lines (1 to 4 and 5 to 8) assures meeting all requirements for signalling devices. The outputs are monitored for short circuits and wire breaks.

Power supply:	internal via System-BUS
Current consumption:	26 mA
Operating temperature:	0°C to +50°C
Weight:	216 g

System configuration hint:

The total output current of the module depends on the capacity of the power supply unit and overall system load connected to it.

Monitored input board VdS CE

B8-IM8

20-100021-01-01

The B8-IM8 is designed to provide an interface between conventional detectors and the SecuriFire 3000 control panel. It enables the panel to use each of the eight channels individually to monitor the presence and operation of up to 32 conventional detectors per channel (max. 256 detectors) or up to 10 Ex-rated detectors in intrinsically safe applications using Z787 safety barriers or to monitor proper operation of an activated device such as valves, doors etc...

Allows for VdS compliant monitoring of extinguishing devices.

Designed and approved for Hekatron 130 Series and specific Hochiki Ex rated detectors. Please refer to the product data sheet for related information.

The inputs are supervised for open and short circuits. Each channel / input is individually programmable and configurable using configuration software and on-board jumpers.

Power supply:	internal via System-BUS
Current consumption:	9 mA
Operating temperature:	0°C to +50°C
Weight:	220 g

Alarm line board

B3-LEE23

Detectors series 140

EG072851-B

For connecting up to 8 stub lines each with a maximum of 30 HX140 series detectors. A maximum of five B3-LEE23 modules can be fitted to connection slots 2 to 8 of a SecuriFire 3000 module rack, however this module is only permitted for use in cases where the system is being reconditioned due to the terms of the approvals of the module.

Power supply:	internal via System-BUS
Current consumption:	22 mA
Operating temperature:	0°C to +50°C
Weight:	210 g

System configuration hint:

A maximum of five B3-LEE23 modules can be operated in slots 2 to 8 of the SecuriFire module rack.

Alarm loop board

B3-LEE24

Detectors series 150

EG072852-B

Refurbishing module for old installations based on HX150 detectors. Provides 4 addressable loops supporting HX protocol and 127 HX150 detectors each.

Power supply:	internal via System-BUS
Current consumption:	27 mA
Operating temperature:	0°C to +50°C
Weight:	210 g

System configuration hint:

A maximum of five B3-LEE24 modules can be operated in slots 2 to 8 of the SecuriFire module rack.

Relay board VdS CE

B8-MRI16

20-100022-01-01

The module offers 16 bi-stable, freely programmable 24V/3A relay contacts. Whether a contact is Normally Open (NO) or Normally Closed (NC) is software configurable. By programming a fail-safe position the status of every individual relay can be defined in the event of a supply voltage failure or the fire alarm control panel being switched off. The B5-MRI16 can be fitted in any of the slots 2-9 of the SecuriFire 3000 module rack.

Power supply:	internal via System-BUS
Current consumption:	4 mA typ. (battery current)
Operating temperature:	0°C to +50°C
Weight:	220 g

System configuration hint:

The B8-MRI16 is able to drive the expansion bus (slots 11 to 13) when placed in slot 9.
Doing so will allow you to run relay modules of type B3-REL10, B3-REL16 and B3-REL16E plugged in slot 11 to 13.

Relay board with 230V contacts VdS CE

B3-REL10

20-100003-01-02

The module contains 10 bi-stable, freely programmable 230V/3A relay contacts. Whether a contact is a make contact or a break contact is ascertained by configuration using software. By programming a fail-safe position the status of every individual relay can be defined in the event of a supply voltage failure or the fire alarm control panel being switched off. A module of type B8-BAF or B5-MRI16 must be fitted to connection slot 9 of the SecuriFire 3000 module rack for controlling the relays.

Power supply:	internal via System-BUS
Current consumption:	max. 3 A
Operating temperature:	-5°C to +50°C
Weight:	285 g

System configuration hint:

Can only be operated in connection slot 11 to 13 of the module rack.

Relay board with 24V contacts

B3-REL16

20-1000004-01-02

The module contains 16 bi-stable, freely programmable 24V/3A relay contacts and is used for controlling sirens, holding magnets, relays etc. Whether the contact is a NO or NC contact is determined by software-based programming. By programming a fail-safe position the status of every individual relay can be defined in the event of a supply voltage failure or the fire alarm control panel being switched off. A module of type B8-BAF or B5-MRI16 must be fitted to connection slot 9 of the SecuriFire 3000 module rack for controlling the relays.

Power supply:	internal via System-BUS
Current consumption:	max. 3 A
Operating temperature:	-5°C to +50°C
Weight:	315 g

System configuration hint:

Can only be operated in connection slot 11 to 13 of the module rack.

Relay board with fused 24V outputs

B3-REL16E

20-1000005-01-01

Identical to module B3-REL16 in terms of technical specifications and function, but with additional fused relay contacts (the fuses are not monitored) and resistors (3.3kΩ monitoring resistance and 680Ω working resistance) for use as a VdS extinguishing interface. Using jumpers, it is possible to choose between normal relay contacts and VdS interfaces.

Power supply:	internal via System-BUS
Current consumption:	max. 3 A
Operating temperature:	-5°C to +50°C
Weight:	315 g

System configuration hint:

Can only be operated in connection slot 11 to 13 of the module rack.

11. SecuriLine eXtended Modules

Single detector interface

SDI 82X-1

3 Inputs 1 Output

10-1200000-01-01

Addressable I/O module typically connected to manual call points (MCP), pull stations, smoke switches or door monitors. For SecuriLine eXtended.
Provides 3 inputs and 1 output, freely programmable
With emergency alarm transmission.

Operating voltage:	12 to 30 V DC
Current consumption:	0,300 mA
Operating temperature:	-25°C to +70°C
Weight:	13 g
Dimensions (HxWxD):	22 x 32 x 14 mm

Approvals

VdS-Approval:	G 211046
Declaration of Performance (DoP):	CPR-10-14-105

Stub Control Unit

BX-SCU

20-2100022-01-01

For an addressable stub line installation within a SecuriLine eXtended. Up to 32 devices can be connected to the stub line. A total maximum of 128 devices per SecuriLine eXtended using the BX-SCU is allowed.

Operating voltage:	13 to 30 V DC
Current consumption:	0,47 mA
Protection class:	IP00 with case IP66
Operating temperature:	-20°C to +60°C
Weight:	31 g
Dimensions (HxWxD):	67 x 67 x 20 mm with case 94 x 94 x 57 mm

Approvals

VdS-Approval:	G 217030
Declaration of Performance (DoP):	CPR-20-17-020

Assembly hint:

The box GEH MOD IP66 must be ordered separately
See accessories for loop modules

BX-OI3

20-2100001-01-04

Contains a relay output with a programmable fail-safe position, two inputs for monitored querying of potential-free contacts and an optocoupler input for monitoring external voltages. In addition, the voltage on the loop circuit is internally monitored for low voltage. The BX-OI3 is particularly well-suited for connecting special detectors (flame and line detectors, smoke aspirating systems etc.). Both the addressing of the module and the setting of parameters for connected special detectors (e.g. how they behave when there is an alarm or a fault) is carried out via the fire alarm control panel using PC software. An IP66 protection class plastic case is used for fitting the module, which can be fitted with various different cable inlets as required. Shipped including 180Ω resistors for the monitored inputs.

Operating voltage:	12 to 30 V DC
Current consumption:	0,55 mA
Protection class:	IP00 with case IP66
Operating temperature:	-20°C to +60°C
Weight:	37 g
Dimensions (HxWxD):	67 x 67 x 20 mm with case 94 x 94 x 57 mm

Approvals

VdS-Approval:	G 210133
Declaration of Performance (DoP):	CPR-20-13-005

Assembly hint:
 The box GEH MOD IP66 must be ordered separately
 See accessories for loop modules

Relay Output Module

**BX-REL4****20-2100004-01-03**

Provides for four potential free relay outputs with a contact rating of 2A@230V. Each relay allows for Common, Normally open and Normally closed contacts. Each input is freely programmable using SecuriFire Studio.

The module is also suitable for emitting switching impulses. The relay outputs can be switched to a fail-safe position in the event of voltage loss on the loop circuit, and the voltage on the loop circuit is also internally monitored for under voltage. It fits nicely in the IP66 rated enclosure listed below which allows for different cable inlets.

Operating voltage:	12 to 30 V DC
Current consumption:	0,51 mA
Protection class:	IP00 with case IP66
Operating temperature:	-20°C to +60°C
Weight:	64 g
Dimensions (HxWxD):	67 x 67 x 20 mm with case 130 x 94 x 57 mm

Approvals

VdS-Approval:	G 210134
Declaration of Performance (DoP):	CPR-20-13-008

Assembly hint:

The box GEH MOD2 IP66 must be ordered separately
See accessories for loop modules

Monitored Input / Output Module VdS CE

BX-IOM

20-210002-01-09

For controlling monitored devices, which are supplied with power by an external power supply (e.g. sirens, etc.). The module contains a short circuit resistant monitored output (suitable for continuous operation with a configurable pulse output with transmission time limit) and galvanically isolated input which can be used either as a voltage on the loop circuit is internally monitored for undervoltage. Both the addressing of the module and the setting of its parameters, which are set separately for every input, are carried out using PC software via the fire alarm control panel.

Operating voltage:	10 to 30 V DC
Current consumption:	0,46 mA
Protection class:	IP00 with case IP66
Operating temperature:	-20°C to +60°C
Weight:	30 g
Dimensions (HxWxD):	67 x 67 x 20 mm with case 94 x 94 x 57 mm

Approvals

VdS-Approval:	G 210132
Declaration of Performance (DoP):	CPR-20-13-006

Assembly hint:
 The box GEH MOD IP66 must be ordered separately
 See accessories for loop modules

**BX-IM4****20-2100003-01-03**

For indication and monitoring of various types of acknowledgements, e.g. door contacts, fire zones, extinguishing systems, sprinkler messages, etc. The module contains 4 inputs for monitored and non-monitoring querying of potential-free contacts, which are suitable for processing switching states of longer than 330ms. Both the addressing of the module and the setting of its parameters, which are set separately for every input, are carried out using PC software via the fire alarm control panel. An IP66 protection class plastic case is used for fitting the module, which can be fitted with various different cable inlets as required.

Operating voltage:	12 to 30 V DC
Current consumption:	0,45 mA
Protection class:	IP00 with case IP66
Operating temperature:	-20°C to +60°C
Weight:	33 g
Dimensions (HxWxD):	67 x 67 x 20 mm with case 94 x 94 x 57 mm

Approvals

VdS-Approval:	G 210131
Declaration of Performance (DoP):	CPR-20-13-007

Assembly hint:

The box GEH MOD IP66 must be ordered separately
See accessories for loop modules

In-/Output Module VdS CE

BX-O2I4

BX-O2I4

20-2100014-01-05

BX-O2I4-HP

20-2100023-01-01

The BX-O2I4 has two relay outputs and four monitored inputs for polling potential-free contacts. The individual I/O functions can be configured differently and combined so that this module can be used, for example, for the integration of fire dampers with feedback. Addressing and parameter assignment for the BX-O2I4 is performed with PC software via the fire alarm control panel.

The module includes a short-circuit isolator. In the event of wire breakage or a short-circuit, this functionality ensures that the fault is localized and at the same time maintains the full operability of the addressable loop.

BX-O2I4-HP

Operating voltage:	12 to 30 V DC
Current consumption:	
BX-O2I4	0,7 mA
BX-O2I4-HP	0,63 mA
Switching load:	
BX-O2I4	(0,25 A@230 VAC / 2,5 A@24 VDC) 60 W
BX-O2I4-HP	(8 A@250 VAC / 8 A@30 VDC) 240 W
Protection class:	IP00 with case IP66
Operating temperature:	-20°C to +60°C
Weight:	
BX-O2I4	57 g
BX-O2I4-HP	100 g
Dimensions (HxWxD):	
BX-O2I4	100 x 67 x 20 mm
with case	130 x 94 x 57 mm
BX-O2I4-HP	
without side panels	103 x 72 x 20 mm
with side panels	103 x 103 x 20 mm

Approvals

Declaration of Performance (DoP):	CPR-20-13-012

Assembly hint:
The mounting box must be ordered separately
See accessories for loop modules

Relay Output Module

**BX-O1****20-2100015-01-02**

Provides one potential free relay outputs with a contact rating of 2A@230V. Each input is freely programmable using SecuriFire Studio.

The module is also suitable for emitting switching impulses. The relay output can be switched to a fail-safe position in the event of voltage loss on the loop circuit, and the voltage on the loop circuit is also internally monitored for under voltage. It fits nicely in the IP66 rated enclosure listed below which allows for different cable inlets.

Operating voltage:	12 to 30 V DC
Current consumption:	0,46 mA
Protection class:	IP00 with case IP66
Operating temperature:	-20°C to +60°C
Weight:	30 g
Dimensions (HxWxD):	67 x 67 x 20 mm with case 94 x 94 x 57 mm

Approvals

VdS-Approval:	G 212024
Declaration of Performance (DoP):	CPR-20-13-013

Assembly hint:

The box GEH MOD IP66 must be ordered separately
See accessories for loop modules

Monitored Input Module VdS CE

BX-I2

20-2100016-01-02

For indication and monitoring of various types of acknowledgements, e.g. door contacts, fire zones, extinguishing systems, sprinkler messages, etc. The module contains 2 inputs, one for monitored and non-monitoring querying of potential-free contacts, which is suitable for processing switching states of longer than 330ms and one optocoupler input for monitoring external voltages. Both the addressing of the module and the setting of its parameters, which are set separately for every input, are carried out using PC software via the fire alarm control panel. It fits nicely in the IP66 rated enclosure listed below which allows for different cable inlets.

Operating voltage:	12 to 30 V DC
Current consumption:	0,46 mA
Protection class:	IP00 with case IP66
Operating temperature:	-20°C to +60°C
Weight:	32 g
Dimensions (HxWxD):	67 x 67 x 20 mm with case 94 x 94 x 57 mm

Approvals

VdS-Approval:	G 212023
Declaration of Performance (DoP):	CPR-20-13-013

Assembly hint:	
The box GEH MOD IP66 must be ordered separately See accessories for loop modules	

**BX-AIM****20-2100005-01-04**

Can be configured as a monitored input for querying potential-free contacts or as a collectively addressable detector zone (DC technology). The monitored input can, if required, be used as a standard extinguishing interface in accordance with VdS directives, and furthermore a balancing function of the fault thresholds for the quiescent current level is also possible (according to EN 54-13 or VdS 2489). By interconnecting a Zener barrier and by using intrinsically safe detectors it is also possible to monitor hazardous areas. It fits nicely in the IP66 rated enclosure listed below which allows for different cable inlets. Supplied including an alarm resistor (560Ω) and a terminating resistor (19k1).

Operating voltage:	10 to 29 V DC (from the loop circuit)
Current consumption:	without DC branch: Type 0,46 mA with DC branch: Type. 1,8 mA
Protection class:	IP00 with case IP66
Operating temperature:	-20°C to +60°C
Weight:	30 g
Dimensions (HxWxD):	67 x 67 x 20 mm with case 94 x 94 x 57 mm

Approvals

VdS-Approval:	G 208138
Declaration of Performance (DoP):	CPR-20-13-009

Assembly hint:

The box GEH MOD IP66 must be ordered separately
See accessories for loop modules

BX-MDI8

20-2100017-01-03

The BX-MDI8 has 8 monitored inputs for connecting detection zones or for polling potential-free contacts. The module requires a redundant, external power supply for operation. Addressing and parameter assignment for the BX-MDI8 is performed with PC software via the fire alarm control panel. The module includes a short-circuit isolator. In the event of wire breakage or a short-circuit, this functionality ensures that the fault is localized and at the same time maintains the full operability of the addressable loop. It fits nicely in the IP66 rated enclosure listed below which allows for different cable inlets.

Operating voltage:	12 to 30 V DC
Current consumption:	0,45 mA
Protection class:	IP00 with case IP66
Operating temperature:	-20°C to +60°C
Weight:	125 g
Dimensions (HxWxD):	80 x 151 x 20 mm with case 94 x 180 x 57 mm

Approvals

VdS-Approval:	G 215099
Declaration of Performance (DoP):	CPR-20-13-015

**Magnetic Door holder with
Door magnet support AFS 55**

BX-MDH

(delivered without Battery)

20-2100050-01-02

The BX-MDH is an electronically triggered magnetic door holder for connection to the SecuriLine eXtended. It has a permanent magnet which fixes the fire protection doors in the open state in normal operation without requiring electrical energy.

If there is a fire alarm or a fault, a brief current pulse neutralizes the magnetic field and the fire protection doors close.

- Magnetic holding area Ø48 mm
- Max. Holding strength 200 N

Operating voltage:	12 to 30 V DC
Current consumption:	0,550 mA
Protection class:	IP42
Operating temperature:	-20°C to +60°C
Weight:	600 g
Dimensions (HxWxD):	85 x 142 x 40 mm
Material:	Polycarbonate
Color:	light grey (RAL 7035)

Assembly hint:

Lithium 9V Battery must be purchased locally

Accessories

Door magnet support for BX-MDH	ASS 55	6500023
Adjustable door magnet support for BX-MDH	AFS 55	6500102

End Position Switch Module VdS CE

BX-ESL

20-2100007-01-04

End position switch for deployment in sprinkler monitoring and for blocking systems. The module contains an optical light barrier which measures the movement of an activation plunger. The cables are fed into the unit using PG connection joints, with connection to the loop module being via 3 screw-type terminals. Both the addressing of the module and the setting of its parameters are carried out using PC software via the fire alarm control panel. The BX-ESL is fitted in a plastic case with IP65 protection class and is delivered incl. 2 connection joints.

Operating voltage:	12 to 30 V DC
Current consumption:	LED on: 1,3 mA LED off: 0,4 mA
Protection class:	IP65
Operating temperature:	-20°C to +60°C
Weight:	95 g
Dimensions (HxWxD):	58 x 58 x 34 mm
Material:	PA-Taromid (Thermoplastic)
Color:	case: coral red (RAL 3016) cover: jet black (RAL 9005)

Approvals

VdS-Approval:	G 210130

CCD 573X MC

multicolor,
available in different RAL colors

30-500006-92-02

The temperature- and CO-supported smoke sensor provides early detection of smouldering, glowing and open fires with smoke development.

- Combined smoke, heat and carbon monoxide (CO) detector according EN 54-5/7/26/29/30
- Optimal sensitivity
- False-alarm security through temperature and carbon monoxide-supported smoke alarm evaluation
- (CUBUS+ adaption)
- Technical CO alarm according EN 50291-1
- Adjustable technical CO pre-signal

Operating voltage:	7 to 31 V DC
Current consumption:	0,15 mA
Protection class:	IP44
Operating temperature:	-25°C to +50°C
Weight:	125 g
Dimensions with base (ØxH):	118,8 x 58,1 mm
Material:	ABS/PC
Color:	signal white (RAL 9003)

Approvals

VdS-Approval:	G 212183
Declaration of Performance (DoP):	CPR-10-13-300

Multiple sensor detector, smoke and heat

**MCD 573X****30-5000003-02-06****MCD 573X CP**coated print,
for temporarily humid areas**30-5000003-52-06****MCD 573X MC**multicolor,
available in different RAL colors**30-5000003-92-06**

Combined smoke and heat detector with programmable detection behaviour smoke / heat or combined.

- Single addressable
- Multiple standard use on two parallel channels (smoke/heat) according to EN 54-5, -7 and EN 54-29
- Self-monitoring of all detector parts
- Automatic smoke alarm sensitivity through CUBUS-adaption
- Constant sensitivity through dust compensation
- Built-in short circuit isolator
- Patented "Signature Alarm" for smoke and heat. Selection of heat classes according to EN 54-5; Class A1, A2, B inclusive index R and S for all 3 heat classes
- 100% backwards compatible to the STD531 and MCD 573
- Dust cap included

Messages

- separate alarm signalisation for smoke and heat
- 2 pre-warning levels for smoke
- warning signal for high ambient temperature
- contamination level 1 and 2

Settings via SecuriFire

- smoke and/or heat part can be temporarily disabled.
- smoke sensitivity
- programmable control output
- heat class and index

Operating voltage:	7 to 31 V DC
Current consumption:	0,12 mA
Protection class:	IP44
Operating temperature:	-25°C to +50°C
Weight:	125 g
Dimensions with base (ØxH):	118,8 x 58,1 mm
Material:	ABS/PC
Color:	signal white (RAL 9003)

Approvals

MCD 573X-S

30-5000007-02-01

MCD 573X-S MC

multicolor,
available in different RAL colors

30-5000007-92-01

Multiple sensor detector acoustic
For early detection of smouldering and open fires with and
without smoke development.

- Single addressable
- Multiple standard use on two parallel channels
(smoke/heat) according to EN 54-5, -7 and EN 54-29
- See MCD 573X section for more details
- Acoustic according EN 54-3, Tonality adjustable in
three variable volumes
- Sounder volume 92/81/69 dB(A)

Operating voltage:	12 to 31 V DC
Current consumption:	1,5 mA
Protection class:	IP22
Operating temperature:	-25°C to +60°C
Weight:	135 g
Dimensions with base (ØxH):	118,8 x 58,1 mm
Material:	ABS/PC
Color:	signal white (RAL 9003)

Approvals

VdS-Approval:	G 213053
Declaration of Performance (DoP):	CPR-10-13-307

Assembly hint:

The RAL Classic color system is available as an assortment for all MC
colored product variants.

➔ Please refer to chapter RAL Colors.

12.2. Conventional Detectors SecuriStar

Smoke detector

SCD 563

5000611-0111

Smoke Criteria Detector

- Conventional detector
- Automatic smoke alarm sensitivity through CUBUS-adaption
- Self-monitoring of all detector parts
- False alarm resistant alarm evaluation
- Constant sensitivity through dust compensation

Operating voltage:	18 to 30 V DC
Current consumption:	0,12 mA
Protection class:	IP44
Operating temperature:	-25°C to +60°C
Weight:	135 g
Dimensions with base (ØxH):	118,8 x 58,1 mm
Material:	ABS / PC
Color:	signal white (RAL 9003)

Approvals

VdS-Approval:	G 208198
Declaration of Performance (DoP):	CPR-10-13-303

Note:

Run out phase.
If possible, please use replacement product MCD 573X

SecuriStar Detectors

Temperature detector VdS CE

TCD 563-1	Heat Class A1	5100165-0111
TCD 563-3	Heat Class B	5100165-0113

Temperature Criteria Detector, preset to level and/or rate-of-rise according to Class A1, A2 or B.

- Conventional detector
- Highly resistant to false alarm
- Fixed threshold and / or rate-of-rise capabilities
- 100% backwards compatible to the UTD521 and UTD523

Operating voltage:	16,5 to 30 V DC
Current consumption:	0,12 mA
Protection class:	IP44
Operating temperature:	-25°C to +70°C
Weight:	125 g
Dimensions with base (ØxH):	118,8 x 58,1 mm
Material:	ABS / PC
Color:	signal white (RAL 9003)

Approvals

VdS-Approval:	G 208199
Declaration of Performance (DoP):	CPR-10-13-305

Note:
Run out phase.
If possible, please use replacement product MCD 573X

12.3. Accessories for SecuriStar Detectors

Protection basket

SRS 01

SRS 02

SRS 01 for SecuriStar and ORM130 **5000586**

SRS 02 for IP54 base or BX-SBL **5000634**

Protective cage. To protect the detector from damage.

Dimensions with base (ØxH):	SRS 01: 148 x 90 mm
	SRS 02: 148 x 122 mm

Material:	Steel, nickel-plated
-----------	----------------------

Detector mounting console

MMK200/350 w/o socket and detector **FG020520**

For horizontal installation of detectors on steep roofs or ceilings. Vertically adjustable in a range of 0 to 90° and expandable from 200 to 350 mm.

It is ideally suited for the detector base USB 502-xx, which is mounted by means of two size M4 screws.

Material:	Sheet steel, powder-coated
-----------	----------------------------

Color:	Light gray (RAL 7035)
--------	-----------------------

Detector numbering plate

DNP 502 VE10

DNP 521/531

DNP 502 VE10 delivery unit: 10 pieces **31-3100001-01-02**

DNP 521/531 delivery unit: 1 piece **3110320**

Detector numbering plate for SecuriStar detectors. Max. size for label 45 x 75 mm or P-Touch label

Material:	ABS / PC
-----------	----------

Color:	signal white (RAL 9003)
--------	-------------------------

SecuriStar Detectors

Detector heating for MCD 573X CP

FDBH291

FG020480-A

Detector heating for USB 502-xx. Needs cable binders and reserve terminal block (USB Term) for wiring.
For detector MCD 573X CP only.

SecuriStar Accessories

Various spare parts

	Optional reserve terminal block for cross-connections USB 502-xx	USB Term	31-3100002-01-01
	Terminal Block for Detector Base, w/o loop cont. switch delivery unit: 10 pieces	STE 01-BK PU10	30-4100002-01-01
	Rubber cap for base USB 502-1 or -6	GKAPPE 501	FG020189

13. Base for SecuriStar Detectors

Detector Bases

USB 502-6

USB 502-6 surf. mounting, w/o loop contact **30-4100005-06-01**

USB 502-1 surface mounting **30-4100005-01-01**

USB 502-2 flush mounting **30-4100005-02-01**

USB 502-3 surf. mount., for humid areas **30-4100005-03-01**

USB 502-4 flush mount. in concrete **30-4100005-04-01**

USB 502-5 socket for mounting on pipes, **30-4100005-05-01**

USB 502-6 MC available in different RAL colors **30-4100005-96-01**

USB 502-1 MC available in different RAL colors **30-4100005-91-01**

USB 502-1

Base for addressable and conventional SecuriStar detectors with integrated 6 wire terminal and detector fixing by means of bayonet coupling.

USB 502-2

Protection class:	
USB 502-1, -2, -4, -5 and -6	IP44
USB 502-3	IP54

Operating temperature:	-25°C to +70°C

USB 502-4

Assembly hint:

The RAL Classic color system is available as an assortment for all MC colored product variants.

→ Please refer to chapter RAL Colors.

USB 502-5
(USB 502-1 with pipe clamp)

Base for SecuriStar Detectors

Detector Base, surface mounting (w/o loop cont. switch) with illuminated ring

USB 502-20 surface mounting

20-2100019-01-01

Universal base with illuminated ring
For addressable SecuriStar detectors with uniform 6-pin terminal block. Surface mounting, without loop contact.

Illuminated ring:

- Fixed flash rate
- Low power consumption
- Can be actuated individually

Protection class:	IP44
Operating temperature:	-25°C to +70°C
Weight:	90 g
Dimensions (ØxH):	118,5 x 25 mm
Material:	ABS / PC
Color:	signal white (RAL 9003)

Detector Base, surface mounting Ex-i IP54

USB 502-7 Ex-i surface mounting

30-4100005-07-01

Along with the MMD 130 Ex-i optical smoke detectors, it is suitable for use in Ex zones 1, 2 and 22. It has no loop contact.

Protection class:	IP54
Operating temperature:	-25°C to +70°C
Weight:	189 g
Dimensions (ØxH):	123,5 x 50 mm
Material:	ABS / PC
Color:	signal white (RAL 9003)

Ex-mounting socket for surface mounting of MMD 130 Ex-i

USB 502-8 Ex-i

30-4100005-08-01

Along with the MMD 130 Ex-i optical smoke detectors, it is suitable for use in Ex zones 1, 2 and 22. It has no loop contact.

Protection class:	IP44
Operating temperature:	-25°C to +70°C
Weight:	95 g
Dimensions (ØxH):	118,5 x 25 mm
Material:	ABS / PC
Color:	signal white (RAL 9003)

14. Ventilation Duct Detectors SecuriLine eXtended

Air duct detector base set, without detector

LKM-SET

30-5500005-01-01

Housing with transparent cover. For mounting ventilation duct detectors: LKM 593X, LKM 140, LKM 150, and LKM 583 on round or rectangular ventilation ducts. Including inlet and outlet pipe.

Protection class:	IP54
Operating temperature:	-25°C to +60°C
Weight:	485 g
Dimensions without pipes:	95,5 × 247,2 × 135 mm
Ventilation duct diameter (Ø):	20 to 300 cm
Ventilation duct side length (□):	15 to 300 cm
Air flow speed:	1 to 20 m/s
Material:	PC/anodised aluminium tube

Duct Smoke detector SecuriLine eXtended

LKM 593X

30-5500001-01-01

For early detection of smouldering and open fires with smoke development. For mounting in the LKM-Set, for ventilation ducts. Individually addressable and backwards compatible to SSD 531K.

- Signature alarm for smoke
- Smoke pre-signal
- Alarm threshold tracking
- Wind speed 1...20 m/s

Operating voltage:	7 to 31 V DC
Current consumption:	0,15 mA
Operating temperature:	-25°C to +60°C
Weight:	125 g
Dimensions with base (ØxH):	118,8 x 58,1 mm
Material:	ABS/PC
Color:	signal white (RAL 9003)

Approvals

VdS-Approval:	G 214124
Declaration of Performance (DoP):	CPR-30-13-025

15. Ex/ATEX approves Detectors

Multicriteria Detector, Ex-proof

MMD 130 Ex-i

30-500005-01-01

An intrinsically safe multi-criteria detector for use in hazardous areas of zones 1, 2 (gas) and 22 (non-conductive dust). The MMD 130 Ex-i works in accordance with the scattered light principle and detects smouldering, glowing and open fires with smoke or heat development at an early stage. The device is approved according to directive 2014/34/EU.

Operating voltage:	10 to 28 V DC
Current consumption:	0,15 mA
Protection class:	IP54
Operating temperature:	-25°C to +70°C
Weight:	125 g
Dimensions with base (ØxH):	118,8 x 58,1 mm
Material:	ABS / PC
Color:	signal white (RAL 9003)
Standard for explosion-hazard areas:	II 2G Ex ib op is IIC T4 Gb II 3D Ex ib op is IIIB T130°C Dc

Approvals

VdS-Approval:	G 211094
Ex Approval:	EPS 11 ATEX 1 346 X

Note:
Run out phase.

Safety barrier

Z787

Z787F

Z787

Z787F

with replaceable fuse

FG020121

FG020430

The safety barriers for intrinsically safe detector zones prevent too high an energy level from entering a hazardous area, which could cause ignition sparks if discharged there. The barrier is connected in series into the wiring of the detector zone. The device is approved according to directive 2014/34/EU.

- Max. short circuit current 93 mA
- Max. power 650 mW

Operating voltage:	25,5 V DC
Current consumption:	35 mA
Protection class:	IP20
Operating temperature:	-20°C to +60°C
Weight:	150 g
Dimensions (HxWxD):	110 x 115 x 12,5 mm
Material:	Makrolon

Standard for explosion-hazard areas:

- II 3G Ex nA IIC T4 Gc
- II (1) GD Ex ia Ga IIC
- II (1) GD Ex ia Da IIIC

16. Radio system SecuriAir

Radio Gateway VdS CE

BX-WGW

(delivered without Battery)

20-210021-01-02

The radio gateway BX-WGW is suitable for connection to the SecuriLine eXtended and serves as an interface for the communication between the SecuriFire fire alarm control panel, the radio fire detector and the radio manual call points. Up to 30 radio detectors can be connected to a gateway.

Operating voltage:	16,5 to 30 V DC
Current consumption:	0,75 mA
Protection class:	IP40 with case
Operating temperature:	-20°C to +60°C
Weight:	157 g
Dimensions (HxWxD):	without case: 110 x 80 x 14 mm with case: 167 x 89 x 28 mm
Material:	ABS
Color:	pure white (RAL 9010)

Approvals

VdS-Approval:	G 217001
Declaration of Performance (DoP):	CPR-20-17-021

Assembly hint:
 The battery pack BAT3.6-10 must be ordered separately
 → See SecuriAir accessories

Radio fire detector

**FDOOT271-O**

(delivered without Battery)

20-3001000-01-02

The radio fire detector FDOOT271-O is a multiple sensor detector and is used to extend fire alarm systems. Up to 30 radio fire detectors FDOOT271-O can be connected to the radio gateway BX-WGW.

- Transmission power (360°): 10mW ERP

Operating voltage:	BAT 3.6-10 (3,6 V / 10 Ah)
Protection class:	IP44
Operating temperature:	-10°C to +55°C
Weight:	130 g
Dimensions (ØxH):	117 x 64 mm
Material:	ABS
Color:	pure white (RAL 9010)

Approvals

VdS-Approval:	G 216094
Declaration of Performance (DoP):	0786-CPR-21527

Assembly hint:

The battery pack BAT3.6-10 must be ordered separately
 → See SecuriAir accessories

Radio manual call point

**FDM275-O**

(delivered without Battery)

20-3001100-01-01

The radio manual call point FDM275-O Type A / direct tripping, for manual fire alarm release. Up to 30 radio fire detectors FDM275-O can be connected to the radio gateway BX-WGW.

Operating voltage:	BAT 3.6-10 (3,6 V / 10 Ah)
Protection class:	IP44
Operating temperature:	-10°C to +55°C
Weight:	279 g
Dimensions (HxWxD):	87 x 87 x 63 mm
Material:	Polycarbonate
Color:	flame red (RAL 3000)

Approvals

VdS-Approval:	G 216096
Declaration of Performance (DoP):	0786-CPR-21529

Assembly hint:

The battery pack BAT3.6-10 must be ordered separately
 → See SecuriAir accessories

17. Manual Call Points

17.1. Addressable Manual Call Points SecuriLine eXtended

Manual Call Point, Type A

MCP 545X-1 N	surface mounting	10-5700002-01-04
MCP 545X-2 N	flush mounting	10-5700005-01-04
MCP 545X-4 N	IP67	10-5700006-01-04
MCP 545X-1S N	surface mounting, with Swedish labelling	10-5700004-01-04
MCP 545X-1E N	surface mounting, without flap, non-breakable activation	10-5700003-01-04

The manual call point MCP 545X N is a non-automatic detector for fire alarm systems for direct connection to the SecuriLine eXtended. An alarm is triggered directly when the glass panel is broken. The alarm persists until the glass panel is replaced with a new one.

Alarm triggering is indicated by means of a red LED.

For test purposes, an alarm can be triggered by means of a test key without breaking the glass panel.

To increase the security with respect to false alarms, the MCP 545X N can additionally be provided with a sealable hinged cover.

Operating voltage:	7 to 31 V DC
--------------------	--------------

Current consumption:	0,12 mA
----------------------	---------

Protection class:

MCP 545X-1 N, MCP 545X-2 N, MCP 454X-1S N and MCP 545X-1E N	IP24

Manual Call Point, Type A, Emergency Stop

**MCP3A-B000SG-K013-66****10-5700012-01-01**

The manual call point WCP3A is a non-automatic detector for fire alarm systems with conventional fire alarm lines. An alarm is triggered by pressing in the glass panel.

- Surface mounting
- EN 54-11
- Indoor use
- Function marking "Emergency Stop" for gas extinguishing systems

Operating voltage:	30 V DC
Current consumption:	0,12 mA
Protection class:	IP24D
Operating temperature:	-10°C to +55°C
Weight:	180 g
Dimensions (HxWxD):	93,3 x 89 x 59,5 mm
Material:	plastic, glass fibre-reinforced
Color:	blue (RAL 5002)

Approvals

Declaration of Performance (DoP): 1035-CPR-ES067290

Assembly hint:

Additional terminal block for end resistor must be ordered separately.

Manual Call Points

Manual Call Point, Type A, Manual Release

MCP3A-YC01FG-S084-41 flush mounting

10-5700015-01-01

MCP3A-Y000SG-K013-65 surface mounting

10-5700014-01-01

Manual release device for manual release of a gas extinguishing system according EN12094. The extinguishing is triggered by pressing in the glass panel.

- Indoor use
- Function marking "Manual Release" for gas extinguishing systems

Operating voltage:	30 V DC
Current consumption:	0,12 mA
Protection class:	IP24D
Operating temperature:	-10°C to +55°C
Weight:	180 g
Dimensions (HxWxD):	93,3 x 89 x 59,5 mm
Material:	plastic, glass fibre-reinforced
Color:	yellow (RAL 1003)

Manual Call Point, Type B

MCP 525-7	red	6200149-0007
MCP 525-9	blue	6200149-0009
MCP 525-11	yellow	6200149-0011
MCP 525-14	Stop button, blue	6200149-0014
MCP 525-15	Flooding, green	30-5700014-01-01

Double action break glass, according to VdS. Delivered without inscription label and key, to be ordered separately.

- for dry rooms
- surface or flush mounting
- key protected
- integrated status LED

Operating voltage: 19,6 to 30 V DC

Current consumption:
depending from the used fire / extinguishing panel

Protection class:
MCP 525-7, MCP 525-9, MCP 525-11 and MCP 525-15
IP52

MCP 525-14 IP54

Operating temperature: -10°C to +55°C

Weight: 450 g

Dimensions (HxWxD): 135 x 135 x 37 mm

Material: plastic, ASA

Color:
MCP 525-7 signal red (RAL 3001)
MCP 525-9 and MCP 525-14 signal blue (RAL 5005)
MCP 525-11 signal yellow (RAL 1003)
MCP 525-15 leaf green (RAL 6002)

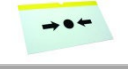

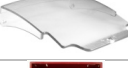

Approvals

VdS-Approval:

Acoustic signal transmitter

PA 1-W	white	30-6300019-02-01
PA 1-R	red	30-6300019-01-01

The acoustic signaller is designed for the following applications:

Acoustic signalling of a fire alarm in buildings and outdoors according to EN 54-3

- Use in deep-freeze areas down to -40 °C Max. temperature
- Conventional control (stitch)
- 79 tones with signal tone according to DIN 33404-3
- 6 tone types according to EN 54-3
- Volume adjustable via potentiometer (12dB)
- Up to 4 tones controllable
- Max. Sound level :
 - DIN tone typ. 24 V 106 dB (A)
 - DIN tone typ. 57 V EN 54-3 105 dB (A)

Included in delivery:

- 1 acoustic signal transmitter
- 1 diaphragm nipple M20

Operating voltage:	10 to 57 V DC
Power consumption:	38 mA at DIN tone
Protection class according to EN 54-3:	IP33C
Operating temperature:	-10°C to +55°C
Weight:	270 g
Dimensions:	86x109.5x80.6 mm
Material:	PC/ABS
Colour:	Signal white (RAL 9003) Signal red (RAL 3000)

Approvals

VdS-Approval:	G 212115
Declaration of performance (DoP):	03CPR2013-06-07

18.2. Optical Alarm Medium

Beacon wall mounted

BW ESDA1000RRS	lens red, socket red, shallow base	30-6300007-01-01
BW ESDA1000RRD	lens red, socket red, deep base	30-6300007-02-01
BW ESBA4000WWS	lens clear, socket white, shallow base	30-6300007-03-01
BW ESBA4000WWD	lens clear, socket white, deep base	30-6300007-04-01

The beacon visually signals an alarm **according EN54-23**. Two flash sequences can be set. The housing is made of plastic. The Beacons can be connected to SecuriFire via B8-OM8, B6-EIO or BX-IOM.

- Flashing frequency 0,5 or 1 Hz

Operating voltage:	17 to 60 V DC
Current consumption:	20 mA
Protection class:	
BW ESDA1000RRS / BW ESBA4000WWS	IP21C
BW ESDA1000RRD / BW ESBA4000WWD	IP33C
Operating temperature:	-10°C to +55°C
Weight:	
BW ESDA1000RRS / BW ESBA4000WWS	170 g
BW ESDA1000RRD / BW ESBA4000WWD	220 g
Dimensions (ØxH):	
BW ESDA1000RRS / BW ESBA4000WWS	100 x 100 mm
BW ESDA1000RRD / BW ESBA4000WWD	100 x 122 mm
Material:	Polycarbonate
Color:	flame red (RAL 3000) signal white (RAL 9003)

Approvals

SBW ESCA4000WWD	lens clear, socket white, deep base	30-6300009-04-01

The optical signal transmitter is **according to EN 54-23**. It serves to signal a fire alarm audibly and optically in buildings and can be connected to SecuriFire via B8-OM8, B4/B6-EIO or BX-IOM.

The signal transmitter can be mounted on the wall (category W)

- Flashing frequency 0,5 or 1 Hz
- Sound level of DIN tone 97 dB(A)
- Acoustics according EN54-3

Operating voltage:	17 to 60 V DC
Current consumption:	25 mA
Protection class:	
SBW ESFA1000RRS / SBW ESCA4000WWS	IP21C
SBW ESFA1000RRD / SBW ESCA4000WWD	IP33C
Deep base for other installations independently tested to IP65 (not valid on EN54-3 or EN54-23)	
Operating temperature:	-10°C to +55°C
Weight:	
SBW ESFA1000RRS / SBW ESCA4000WWS	170 g
SBW ESFA1000RRD / SBW ESCA4000WWD	220 g
Dimensions (ØxH):

20. Special Detectors

Water sensor 12/24 V DC

WS 61 A

133981

The water detector WS 61 is sensitive to smallest amounts of water. Two sensors just above the floor activate a potential free changeover contact as soon as they get in contact with water and will thus release an alarm.

- Detects not only water but also other conductive liquids
- Completely waterproof housing
- Low current consumption
- Suitable for remote testing

Operating voltage:	12 to 24 V DC
Current consumption:	10 mA
Protection class:	IP65
Operating temperature:	-20°C to +60°C
Weight:	125 g
Dimensions with base (HxWxD):	48 x 112 x 25 mm

21. Overvoltage Protection Devices

Lightning and surge arrester combination device, type 1+2 (for PSU)

FLT-SEC-T1+T2-1S-350/25-FM

30-6900078-01-01

Plug-in lightning and overvoltage arrester combination, in accordance with Type 1+2/Class I+II, for 1-phase power supply networks, with separate N and PE (L1, PE, N)
 - IEC test classification T1+T2

Operating voltage:	240 VAC
Protection class:	IP20
Operating temperature:	-40°C to +80°C
Dimensions (HxWxD):	95,2 x 71,2 x 74,5 mm
Material:	PBT-FR
Color:	light grey (RAL 7035) traffic grey (RAL 7042)

Surge protection device, type 3 (for PSU)

PLT-T3-IT-230-FM

30-6900079-01-01

Overvoltage protection type 3, as device protection for termination devices in IT systems, error indication and remote indicator contact.

- Surge voltage category III
- Pollution degree 2
- IEC test classification T3

Operating voltage:	230 VAC
Protection class:	IP20
Operating temperature:	-40°C to +70°C
Dimensions (HxWxD):	90 x 17,7 x 65,5 mm
Material:	PA 6.6
Color:	jet black (RAL 9005)

Surge protection device, class C1, C2, D1 (for DXI or LEExx)

PT-IQ-4x1+F-24DC-PT

30-6900080-01-01

Overvoltage protection, consisting of protective plug and base element, with integrated multi-stage status indicator on the module for four signal wires with common reference potential. Indirect grounding via gas-filled surge arrester.
- IEC test classification C1+C2+D1

Operating voltage:	24 V DC
Protection class:	IP20
Operating temperature:	-40°C to +80°C
Dimensions (HxWxD):	109,3 x 17,7 x 77,5 mm
Material:	PA 6.6
Color:	jet black (RAL 9005)

Surge protection device, class C1, C2, D1 (for Input, output or detector zones)

PT-IQ-2x1+F-24DC-PT

30-6900081-01-01

Overvoltage protection, consisting of protective plug and base element, with integrated multi-stage status indicator on the module for two signal wires with common reference potential. Indirect grounding via gas-filled surge arrester.
- IEC test classification C1+ C2+D1

Operating voltage:	24 V DC
Protection class:	IP20
Operating temperature:	-40°C to +80°C
Dimensions (HxWxD):	109,3 x 17,7 x 77,5 mm
Material:	PA 6.6
Color:	jet black (RAL 9005)

Surge protection device, class C1, C2, D1 (for MMI-Bus or SecuriLan)

PT-IQ-5-HF+F-5DC-PT

30-6900082-01-01

Overvoltage protection, consisting of protective plug and base element, with integrated multi-stage status indicator on the module for five signal wires. For HF applications and telecommunications interfaces without supply voltage (up to 90 Mbps).
- IEC test classification C1+C2+D1

Operating voltage:	5 V DC
Protection class:	IP20
Operating temperature:	-40°C to +80°C
Dimensions (HxWxD):	109,3 x 17,7 x 77,5 mm
Material:	PA 6.6
Color:	jet black (RAL 9005)

Module for supply and remote signaling of connected surge protection devices

Overvoltage Protection Devices

PT-IQ-PTB-PT

30-6900083-01-01

Controller for power supply and multi-stage, floating remote signalling of connected overvoltage protection modules.

Operating voltage:	30 VAC / 50 V DC
Protection class:	IP20
Operating temperature:	-40°C to +80°C
Dimensions (HxWxD):	109,3 x 17,7 x 77,5 mm
Material:	PA 6.6
Color:	jet black (RAL 9005)

Surge protection device, class C1, C2, D1 (for SecuriLan)

TT-SLKK5-F/110A

30-6900084-01-01

Modular terminal block with gas-filled overvoltage arrester as coarse protection between clamping connector and DIN rail, separate PE connection, nominal voltage: 110 V AC, mounting on NS 35/7.5, terminal width: 6.2 mm, terminal height: 69 mm

- IEC test classification C1+C2+D1

Operating voltage:	110 VAC / 150 V DC
Protection class:	IP20
Operating temperature:	-40°C to +80°C
Dimensions (HxWxD):	66,5 x 6,2 x 69,5 mm
Material:	PA
Color:	jet black (RAL 9005)

Accessories and Spare Parts for Overvoltage Protection Devices

Various spare parts

	Shield clamps for cable Ø 3-6 mm	SSA 3-6	30-6800068-01-01
	Housing with cap rail, transparent cover, IP66 Dimensions (HxWxD): 175 x 175 x 100 mm	GEH HS TP	30-6800070-01-01
	Housing with cap rail, non-transparent cover, IP66 Dimensions (HxWxD): 175 x 175 x 100 mm	GEH HS GS	30-6800070-02-01

Batteries

22. Batteries

Backup Battery 12V / 6.5-7 Ah

WP7-12A

31-6800003-01-01

Battery, Pb, 12V, 6.5 Ah capacity.
VdS approved

Weight: 2'200 g
Dimensions (HxWxD): 153 x 67 x 102 mm

Approvals

VdS-Approval: G 114047

Backup Battery 12V / 10-12 Ah

WP12-12A

30-2310003-01-01

Battery, Pb, 12V, 10 Ah capacity.
VdS approved

Weight: 4'000 g
Dimensions (HxWxD): 153 x 92 x 102 mm

Approvals

VdS-Approval: G 114037

Backup Battery 12V / 16-18 Ah

WP18-12SHR

30-2310004-01-01

Battery, Pb, 12V, 16 Ah capacity.
VdS approved

Weight: 6'000 g
Dimensions (HxWxD): 183 x 78 x 169 mm

Approvals

VdS-Approval: G 114033

Backup Battery 12V / 24-27 Ah

WP26-12

30-2310005-01-01

Battery, Pb, 12V, 24 Ah capacity.
VdS approved

Weight: 8'200 g
Dimensions (HxWxD): 168 x 177 x 127 mm

Approvals

VdS-Approval: G 103065

Backup Battery 12V / 38-45 Ah

**WP45-12****30-2310006-01-01**

Battery, Pb, 12V, 38 Ah capacity.
VdS approved

Weight:	17'000 g
---------	----------

Dimensions (HxWxD):	199 x 167 x 172 mm
---------------------	--------------------

Approvals

VdS-Approval:	G 182024
---------------	----------

Backup Battery 12V / 65 Ah

**WP65-12****30-2310007-01-01**

Battery, Pb, 12V, 65 Ah capacity.
VdS approved

Weight:	20'000 g
---------	----------

Dimensions (HxWxD):	174 x 350 x 166 mm
---------------------	--------------------

Approvals

VdS-Approval:	G 105088
---------------	----------

23. Installation, Test and Commissioning Tools

23.1. Detector Test Equipment

Univ. Detector Remover, standard version
for detector series 523/533/563/573

UDR 533 S

5600095-0201

Removal and insertion of SecuriStar detector series 523/533 and 563/573.

- Solid version
- Pluggable on telescope pole series UTP

Weight:	ca. 350 g
Dimensions (ØxH):	98 × 232 mm

Univ. Detector Remover, cardan version
for detector series 523/533/563/573

UDR 533 K

5600096-0201

Removal and insertion of SecuriStar detector series 523/533 and 563/573.

- With cardan joint
- Pluggable on telescope pole series UTP

Weight:	540 g
Dimensions (ØxH):	148 × 247,5 mm

Adapter for UDR 521/531 K
for detector series 523/533/563/573

UDR 533 A

5600094-0201

The UDR 533 A serves as exchangeable adaptor and can be inserted into the UDR 521/531 K, detector removers for SecuriStar detector series, 523/533, 563/573.

Weight:	160 g
Dimensions (ØxH):	98 × 62 mm

Univ. Detector Remover for STD, SSD, UTD 5x1
with gum links

UDR 521/531

5600075

The UDR 521/ 531 serves as exchangeable adaptor and can be inserted into the UDR 521/531 K, detector removers for SecuriStar detector series STD, SSD, UTD 5x1 with gum links

Weight:	160 g
Dimensions (ØxH):	97 x 62 mm

Detector remover for SecuriAir FDOOT271-O

FDUD291

20-3001151-01-01

The detector remover for SecuriAir radio fire detectors FDOOT271-O. It can be inserted into the adapter UTP 918 which can be mounted on the standard pole UTP 6 and UTP 7.

Weight:	594 g
Dimensions (HxWxD):	121 × 390 mm

Detector Test Equipment

Adapter and Extension Poles

	Adapter SOLO-Test pole to UDR 533	ASU 533	5600099-0201
	Universal Telescope pole 1,7 to 3,0 m	UTP 6	5600072
	Universal Telescope pole 2,2 to 4,0 m	UTP 7	5600073
	Adapter to mount the FDUD291 SecuriAir detector remover on the universal telescope pole UTP 6 and UTP 7	UTP 918	5600080
	Extension piece 1.35 m for UTP 6 and UTP 7. For working height up to: 6,0 m / 7,00 m	UTP 5	3330253

Installation, Test and Commissioning Tools

Fire Detector Test Equipment 533

FDT 533

5600097-0201

Fire Detector Test equipment.
For SecuriStar detector series 523/533, 563/573 (smoke and heat) and for the SecuriStar detector series 521/531 (only smoke).

- Pluggable on telescopic pole series UTP
- For using with 918/5 test gas can

Weight: 360 g

CO test extension for FDT 533 CO-Set

FDT 533 CO-SET

30-5600001-01-01

For the optional enhancement of the FDT 533 for testing the CO functionality of the multiple sensor detector CCD573X.

- Pluggable on FDT 533
- For using with CO test gas can

Weight: 305 g

Test gas

PGF 918/5

– Attention: Danger

6900124

Regulation (EC) No. 1272/2008

For functional testing of smoke detectors. Lasts for approx. 200 tests. Free of halogenated hydrocarbons.

Hazard statements:

- H222 Extremely flammable aerosol
- H229 Pressurised container: May burst if heated
- H319 Causes serious eye irritation
- H336 May cause drowsiness or dizziness

Dangerous goods may cause additional costs on airfreight.

CO Test gas

SOLO C3

– Attention: Warning

6800143

Regulation (EC) No. 1272/2008

For functional testing of CO detectors. Carbon monoxide is a highly toxic, colorless and odorless gas.

Hazard statements:

- H229 Pressurised container: May burst if heated

Dangerous goods may cause additional costs on airfreight.

Smoke and Heat Det. Test Kit

Testifire 1001

6900451-0201

Testifire 2001

6900452-0201

Including carbon monoxide release for testing of CO detectors

Fire Detector Test equipment for SecuriStar detector series 521/531, 523/533, 563/573 smoke detectors, heat detectors and combined detectors (smoke and heat) as well for the HX detector series.

- Creates smoke and heat from the same unit
- Integrated ventilator for rapid air cleaning inside tester
- Activation via infrared sensor, no mechanical contact
- Multilanguage user menu on the display
- Battery powered, free movable device

Complete set including:

- Test device smoke and heat
- two battery batons
- battery charger

Protection class:	IP20
Operating temperature:	-10 °C to +50 °C
Weight:	1200g
Dimensions (ØxH):	153 × 273 mm

Accessories and Spare Parts for Testifire

Testing Capsules

Smoke capsule for Testifire 1001 and 2001

Testifire TS3

6900453-0201

CO capsule for Testifire 2001

CO-Patrone TC3

6900454-0201

Batteries for Testifire

Battery baton for Testifire 1001 and 2001

Solo 770

30-6900100-01-01

Universal fast battery charger for Testifire 1001 and 2001

Solo 727

30-6900099-01-01

Telescopic and Extension Pole for Testifire

Fiberglass 4 Section Telescopic Pole - 4.5 m
Accepts up to three Solo 101

Solo 100

6900459-0201

Fiberglass 2 Section Telescopic Pole - 2.5 m
Accepts additional Solo 101

Solo 108

6900460-0201

Fiberglass Extension Pole - 1,13 m

Solo 101

6900461-0201

Storage Bags for Testifire

Bag for tester and access poles

Solo 610

6900457-0201

Separate Pole Carrying / Storage Bag for access poles

Solo 620

6900458-0201

23.1. Loop Test Equipment

Loop Test Board (incl. AC/DC adapter)

STB 01X-E

50-1000004-02-04

Handheld control device for testing and troubleshooting of the SecuriLine eXtended installation and their participants. Includes the power supply adapter (100-240 VAC/24 V DC) and an USB serial interface to a PC. Suitable for SecuriLine eXtended up to 250 loop devices.

Protection class:	IP20
Operating temperature:	+5 °C to +40 °C
Weight:	480 g
Dimensions (HxWxD):	220 × 116 × 95 mm
Material:	Polyamide
Color:	black grey (RAL 7021)

24. RAL-Colors

Multicolor products (MC) are available in 210 different RAL CLASSIC colors.

RAL colors with metallic contents and luminous colors are not available due to technical reasons.

- Metallic paints cause EMV discharge according to EN 61000-4-2.
- The luminous colors can be implemented only by repeated painting, instead of the usual 1-2 layers, up to 4-5 layers are required for the luminous colors. Therefore, it comes to complications when screwing the detector into the socket. Those lines are crossed-out.

Please order all MC variants with color and gloss level. Possible gloss levels are: semi-gloss and glossy.

Example:

RAL 6002 glossy

RAL Nr.	Description	RAL Nr.	Description	RAL Nr.	Description
